**CommunicAsia / EnterpriseIT2011**, Asia's largest, most relevant and comprehensive ICT platform returns on 21 – 24 June 2011 with more exciting happenings. The event has evolved in tandem with the ICT industry, renewing itself to stay focused and relevant to the industry.

- ▶ New venue @ **Marina Bay Sands**
- ▶ A range of **latest innovations** across 3 levels – Basement 2, Levels 1 & 3
- ▶ A record of **5 distinctive Techzones**
- ▶ Over **267** Worldwide & Asian Launches
- ▶ **Hospitality Suites** & Meeting Rooms exclusively at Level 3
- ▶ Insightful sharing sessions with high level keynote speakers @ **CommunicAsia Summit** at Level 3

## Network with Key Exhibitors

# Featuring New Exhibitors @ CommunicAsia / EnterpriseIT2011

Many leading companies have chosen CommunicAsia / EnterpriseIT2011 to showcase their latest products and services. A first time exhibitor at the event, Chandran Nair, Managing Director, National Instruments ASEAN commented, *“CommunicAsia has developed a distinguished record for attracting key decision makers and influencers to the show, and we are confident that this platform will allow NI to effectively drive our message across to the right people who embrace new technology trends.”*

Some of the new exhibitors joining the event include **3M Touch Systems, Arqiva, AsiaSat, Conax, VeriFone Singapore, Vislink News and Entertainment** and **Vu TelePresence**.

## 3M Touch Systems

As a diversified company with a wide range of electronics and communications solutions, 3M is leveraging on this platform to create awareness and acceptance of their new products for touch screens, data centers and interconnects, as well as to create new business opportunities for the company as a whole. The products that will be featured include 3M Projected Capacitive Touch Systems (PCT), 3M™ Twin Axial Ribbon Cable Products and 3MSolutions for Data Centers.

## Eurovision Asia-Pacific

Eurovision distributes more than 20,000 hours of live sports every year, including Olympics, football, motor sports, tennis, athletics and skiing. There are more than 10,000 hours of news and cultural coverage, from governmental meetings and breaking news to live concerts and festivals. On TV, internet, and mobile - they have 60 years of experience putting your live transmission on every platform.

## FiberHome Technologies

FiberHome Technologies Group is an outstanding products and total solution provider in the field of information and telecommunications from China. Their business scope has been extended to R&D, manufacturing, marketing & sales, engineering and services in four major industries: fiber-optic communications, data networking communication, wireless communication and intelligent applications.

## National Instruments

PXI (PCI eXtensions for Instrumentation) is a rugged PC-based platform for measurement and automation systems. PXI combines PCI electrical-bus features with the rugged, modular, Eurocard packaging of CompactPCI and then adds specialised synchronisation buses and key software features. PXI is both a high-performance and low-cost deployment platform for measurement and automation systems.

## Tata Communications

Tata's Global Media and Entertainment Solutions Division enable customers to tap into enhanced creative, reach and profitability through services that drive efficient production, management and distribution of digital media globally. They evolve with the rapid evolution of digital media economy, even while working across diverse digital formats and delivery platforms.

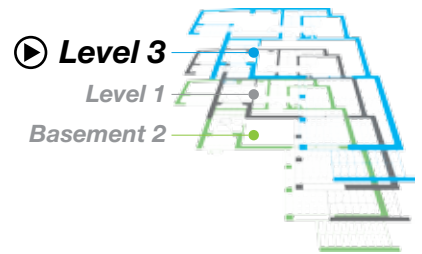

## VeriFone Singapore

VeriFone is moving beyond being just a terminal provider. With the arrival of NFC and the wave of products that will be brought in, VeriFone has also developed its positioning and identified how they wish to play a role in tomorrow's payment ecosystem. Products that will be featured include the latest PAYware Mobile - which leverages on the usability of Apple iPhone/iPod to extend functionality as a payment acceptance device and NFC solutions.

## Hospitality Suites

Leading companies will be utilising the Meeting Rooms / Hospitality Suites on Level 3. They will be holding events such as new product launches, private meetings, cocktail or reception sessions, product demonstrations or seminars / workshops at the exclusive Suites.

**Register to take part in these events!**  
For more details on the events, contact us at [communicasia@sesallworld.com](mailto:communicasia@sesallworld.com).

## International Group Pavilions

Exhibitors are flying their country's flag high! Identify the **25 pavilions** in the exhibition halls and see what these indigenous companies have to offer.

These group pavilions will represent **Australia, Bangladesh, Belgium, Brunei, Canada, China (2), Finland, France, Germany, India, Indonesia, Israel, Korea, Malaysia, Norway, Philippines, Singapore (2), Sri Lanka, Sweden, Taiwan, Thailand, UK and USA.**

## Next Gen Services & Applications

### ST Electronics (Info-Comm Systems)

oTTo-Go Telematics Service Hub provides a unified and interactive telematics service platform that disseminates real time customer-centric information and services to commuters and delivers a unique travelling experience to motorists. These value-added services include traffic-related information (navigation, traffic alert and road routing), location-based services, multimodal transit services, infotainment services, etc.

### Vu TelePresence

Presenting Vu TelePresence™, an affordable luxury with which you can do life-like telepresence on low bandwidth with anyone, anywhere without moving an inch. Vu TelePresence PRO – it is a high definition quality videoconferencing solution using low bandwidth. Vu TelePresence™ has revolutionised telepresence in the USA, and received several awards in elite audio visual trade shows.

**Other exhibitors that feature products and services related to NextGen Services and Applications include:**

### Anewtech Systems

Anewtech Systems is your trusted industrial and embedded computing platform builder. The company offers comprehensive system integration, hardware, software design and OEM services. Anewtech core platform solutions include industrial computer, embedded PC, touch panel PC, storage server, network security appliances, wireless M2M applications, remote device management and smart energy applications.

### Liverage Technology

**Worldwide Launch**

The PLC Splitter lost cost testing system is invented by Liverage Technology. By using the light source hub & power meter hub to link to your PC, it will be the most low cost testing system for you.

## MetaSwitch Networks

Worldwide  
Launch

Metaswitch Thrutu is a mobile service delivering impulsive "in-call sharing". It helps immerse callers in their respective environments add depth to the conversation. When a call is established between two Thrutu enabled mobile phones, a transparent 'drawer' appears that overlays the phone's standard call progress screen. This includes 'buttons' that either caller can press to initiate one of the available actions, sharing content.

## PCCW Global

PCCW Global, a subsidiary of Hong Kong's premier telecommunications provider, PCCW Limited, serves the voice and data needs of multinational enterprises and service providers. Covering more than 1,500 cities and 110 countries, the PCCW Global network supports integrated global communications solutions, including fiber and satellite transmission, IP solutions, managed solutions and voice services.

## Research In Motion

Research In Motion is a leading designer, manufacturer, and marketer of innovative wireless solutions for the worldwide mobile communications market. RIM's portfolio of award-winning products, services, and embedded technologies include the BlackBerry® wireless platform, the RIM Wireless Handheld™ product line, software development tools, radio-modems, and software/hardware licensing agreements.

## Synway

Worldwide  
Launch

Synway designs a wide range of products for developers and system integrators in a variety of telephony applications including VAS, IVR, call recording with extraordinary cost advantages and recognisable performance. Products for use in enterprise and carrier platform incorporate both digital access capability and media processing resources in PSTN and IP environments to ensure scalability and cost efficiency for users in the commoditization age.

## Yealink Network Technology

VP-2009P represents the next generation in IP multimedia communication. It is equipped with TI DaVinci chipset, a 7" LCD touch screen with 800x480 pixels and a 2M adjustable CMOS sensor camera, offers HD voice quality with full duplex speakerphone.

### More exhibitors are listed below:

- ▶ 2N Telekomunikace
- ▶ Conax
- ▶ Elasitas Technologies
- ▶ Grandstream Networks
- ▶ Joymax Electronics
- ▶ Kathrein-Werke
- ▶ Kedacom International
- ▶ KEYMILE
- ▶ Originex (Singapore)
- ▶ Peplink
- ▶ SI-TECH Information Technology
- ▶ Sitecore
- ▶ Stream Media
- ▶ TalariaX
- ▶ TELES / FL-Connect Telecom Services
- ▶ TNS Asia Pacific
- ▶ Transition Networks
- ▶ VeriFone Singapore
- ▶ Vidyo
- ▶ VOGTEC (H.K.)

*and many others...*

## Thinkcube

Thinkcube has developed a next generation cloud computing platform for Telcos. This platform offers a solid foundation for Telcos to offer cloud services to end uses and target different customer segments. Key products include Aura – a SaaS platform which provides collaboration and enterprise applications, Athena – a full fledged LMS portal and virtualised LMS solution.

## ZOHO Corporation

Zoho.com provides a wide, integrated portfolio of more than 20 rich online applications like CRM, Mail, Customer Support, Project Management and more spanning Collaboration, Business and Productivity. Their applications are delivered over the internet, requiring nothing but a browser. This means you can focus on your business and rely on them to maintain the servers and keep your data safe.

## Singapore Highlights on Cloud Computing @ Basement 2

IE Singapore is the lead government agency driving Singapore's external economy, spearheading the overseas growth of Singapore based enterprises and promoting international trade. The IE Singapore Showcase Pavilion will feature leading Singapore companies with innovative applications and solutions under the Pavilion's theme of "Cloud Computing Technologies". Exhibitors in this Pavilion include:

- |                     |                          |              |
|---------------------|--------------------------|--------------|
| ▶ 3rd Planet        | ▶ Inspire Tech           | ▶ Nexwave    |
| ▶ D-Synergy         | ▶ Motorola / V3 Teletech | ▶ Orange Gum |
| ▶ Elixir Technology | ▶ Mozat                  |              |

Other Singapore exhibitors include: 1-Net Singapore, 1-2-1 View Media Holdings, Asiasoft Solutions, Converged Solutions, EON Reality, Extreme Networks, FX Media Internet, Mindwave Solutions, myAsset, NComputing, Originex (Singapore), SecureAge Technology, StarVision Information Technology, Terra Systems and Webvisions.

### Other exhibitors that feature products and services related to Cloud Computing include:

#### Atemis

Atemis offers its new 100% cloud business management applications that cover all business activities and processes. There is no need for separate applications. With 6 branches (CRM, Marketing, Administration, Projects, Finances, HR), 54 modules and 405 features, Atemis cloud applications are of value to every corporation and government.

#### Nexus Telecom

NexusMETER 5 is a multi-vendor, multiservice, carrier-grade performance management solution, featuring dedicated modules for capacity management and network planning, service level management and network operations/troubleshooting. The product improves operational efficiency by automation of the network modeling process. It is one of the leanest performance management solutions in the industry, supporting a large variety of data formats.

### More exhibitors are listed below:

- |                                    |                      |                           |
|------------------------------------|----------------------|---------------------------|
| ▶ Achieva Technology               | ▶ Lverage Technology | ▶ Tata Communications     |
| ▶ Creek Data Communication         | ▶ Lognet Systems     | ▶ Telnic                  |
| ▶ Cyberdigm                        | ▶ Miutech            | ▶ Transition Networks     |
| ▶ Fujikura                         | ▶ ND Satcom          |                           |
| ▶ In-webo Technologies             | ▶ Peplink            | <b>and many others...</b> |
| ▶ International Integrated Systems | ▶ Sitecore           |                           |

# 'Fibre' for NextGen Services

Supported by: **FTTH COUNCIL**  
ASIA PACIFIC

## FiTek Photonics Corporation

FiTek will be launching the FTTH Micro-Tube Extractable backbone indoor cable, EZ-Through Anti-Bending cable, POF cable and POF cable assembly with Agilent, F07, SMA, ST connector and MOST patchcord as well as IFC Cable, DVI, HDMI, Fiber Extender.

First In  
*Asia*

## Shenzhen Transwan Optoelectrical Technology

Worldwide  
Launch

Transwan was founded by one rich-experience team which specialises in the industry of optical communication over ten years. The company markets, designs and manufactures a wide range of optical components O/E transceivers, fiber converters (media converter, multiplexers, SDI over fiber), 3G/HD/SD-SDI SFP is their patented products and it comply with SMPTE 297-2006 and MSA standard. It can support pathological signal pattern in HDTV and live broadcast application.

## Plumettaz Project Equipment (Shanghai)

Plumettaz develops, manufactures and supplies cable laying machines and accessories to the telecommunication and power industry. Depending on the fibre optic cable diameter and dimension of duct, PLUMETTAZ has a wide range of jetting machines covering the cable diameter range 0.8 to 40 mm and duct OD 3 to 63 mm.

## SENKO Advanced Components Australia

Senko Australia is a part of Senko Global Group one of the leading companies involved in FTTH applications, connectors, cleaning tools and cables & systems and specialising on custom solutions on for passive build. Senko Australia offer specialised test equipment and passive components which have been designed for FTTH deployment. With a major market share in OEM manufacturers, Senko Australia will be able to discuss and support new developments with their clients for optical network passive based solutions.

## Shineway Technologies

Worldwide  
Launch

Shineway Technologies is a leading provider for optical T&M instruments. Their products cover handheld palmOTDR, multifunctional test platform MTP-1000 for FTTH/PON applications, optical fault locator, PON power meter, optical power meter, laser source, optical test meter, talk sets, optical fusion splicer and others.

## Sumitomo Electric Interconnect Products (Singapore)

Sumitomo Electric is a manufacturer of broadband solution systems, providing a wide range of products such as fusion splicers, optical fiber cables and related accessories and optical modules for the telecommunication industry. The company has made significant contributions in the field of FTTH development with its dedicated efforts to bring the convenience of the latest technologies even closer to home.

## VOLKTEK Corporation

VOLKTEK specialises in Metro Ethernet solutions, particularly aimed at the ISP market. In-house R&D and manufacturing coupled with extensive experience in the field makes VOLKTEK the perfect partner for reliable, tailor-made fiber deployment in challenging environments. VOLKTEK is a Taiwanese company with regional offices in India, Korea and Europe.

### Other exhibitors in the 'Fibre' for NextGen Services techzone include:

- ▶ Aztech Technologies
  - ▶ Broadlight
  - ▶ Dong Guan TW-SCIE
  - ▶ ETI Software Solutions
  - ▶ Fujikura Asia
  - ▶ HK Wintop Optical Technology
- ▶ LS Cable
  - ▶ Prysmian Cables and Systems
  - ▶ Shenzhen Youngsun Com Optical Fiber Cable
- and many others...**

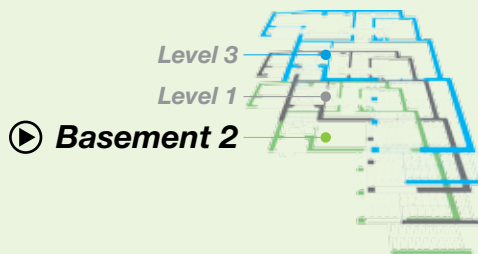

### Other exhibitors that feature products and services related to 'Fibre' for NextGen Services include:

- ▶ Advanced Technology (H.K.)
  - ▶ AFL – Noyes Test & Inspection
  - ▶ APAC Opto Electronics
  - ▶ BKtel Communications
  - ▶ Cable Ways Group of Companies
  - ▶ Chengdu Huajing Keli Industry
  - ▶ Connection Technology Systems
  - ▶ Easy Broadband Technology
  - ▶ EXFO NetHawk

# Sustainable ICT

## AMERESCO Solar

AMERESCO Solar's core personnel have collectively 300+ years global experience in the design, engineering and project management of solar, hybrid and cycle charge power systems, with many employed in the industry for over 20 years. With tens of thousands of successful installations worldwide, their experience in providing reliable and economically feasible renewable power solutions for the global telecom industry is unsurpassed.

## Eltek Valere

The Eltek Valere Multisite Monitor is server base software that monitors Eltek Valere controllers within the customer network. It comes with three main views: Energy statistics, Instant status overview and KPI overview which added its advantages of having full overview and optimized operation of energy usage, power consumption from various sources and other key parameters.

## Coolsure

Worldwide Launch

Cooling systems generate no revenue, but account for 30-50% of the energy consumed in a telecom network. Coolsure's energy-saving BTS shelter cooling solutions reduce this power demand to less than half, without compromising network reliability. Their energy efficiency and DC capability also facilitate alternative/renewable BTS powering strategies"

**Other exhibitors that feature products and services related to Sustainable ICT include:**

### AAE Systems

AAE offers sustainable infrastructure solutions to public agencies and private companies across a broad range of industries. Solutions are deployed in both remote and urban locations, anywhere in the world.

### CONSISTEL

ATRIUM, is a scalable, enterprise software solution that revolutionises the process of design and deployment of in-building wireless networks by managing the life cycle of In-Building Systems (IBS) projects. It improves IBS's overall process efficiencies through reducing time, costs and increasing productivity.

### VNL

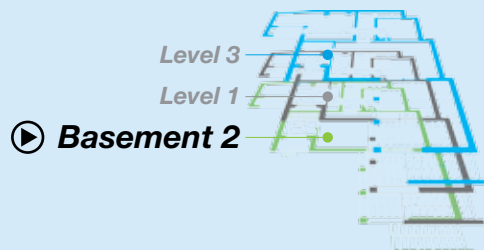

VNL is changing the way operators and broadband service providers build networks through their solar powered WorldGSM infrastructure equipment that helps operators reach rural markets profitably, with minimal CAPEX and zero OPEX.

**Other exhibitors include:**

- ▶ Ascot International\*
- ▶ Ningbo Zhantong Telecom Equipment Industrial
- ▶ PowerOasis\*
- ▶ Synway
- ▶ TNS Asia Pacific

\* Exhibitors within the Sustainable ICT Techzone

# OEM / ODM in Action

## CHINAGPS

Worldwide  
Launch

CHINAGPS has been researching and developing GPS products since 1994. As a pioneer of the GPS industry and one of the top 50 fast-growing enterprises, they have rich experience to meet your sourcing needs. They employ more than 1,000 technicians and possess a registered capital of over 60 million RMB. CHINAGPS has established three brands: Saigechsheng, Saigexingji and Yixingtianxia.

## HELIOR Technology Company

Helior offers uninterruptible power supplies (UPS) from 1 to 120kVA – a selection that cannot be matched by their competitors. Other products that can be found include emergency power supplies, inverters and solar charger controllers, as well as related software. Helior also have the expertise to design new products for their clients' market.

## EZU Technologies

EZU Technologies (EZU) is a leading instruments distributor in Asia for electronic test and measuring instruments distribution. EZU provides wide-ranging services including instruments distribution (brands cover RTX, Spectracom, Anapico), software development & integration, outsource testing centre & cooperative projects, calibration service and technical consultation. Their sister company, EZU Rentals, provides instruments rental services.

## InfiNet Wireless Asia

Worldwide  
Launch

Established in 1993, InfiNet Wireless is a global manufacturer of innovative and high performance fixed wireless broadband solutions. The Russian based-company now delivers systems that are installed in thousands of networks in more than 50 countries. They design and manufacture wireless equipments operating in 2.3-2.6GHz, 3.3-3.7GHz and 4.9-6.4GHz frequency channels operating in high-speed PTP/PTMP links.

## Plante International Development

Worldwide  
Launch

FT (Front Terminal) Series batteries are designed to be used in the area of communication which features on new technology in design, reasonable in structure and occupying the leading position in the same industry of the world. The estimated life of FT Series batteries under float service is up to 15 years. It can be employed in numerous applications in the fields of telecommunications.

## Reton International

Worldwide  
Launch

Reton manufactures VRLA battery with factory in China. Their CiTiBAT batteries inherit from USA and Japan technology. CiTiBAT batteries have excellent qualities and have reached and even surpass the relative technical standards - Chinese, German JIN, Japanese JIS and the international IES standards. CiTiBAT batteries have exported to over 30 countries and gained worldwide recognition

### Other exhibitors that feature products and services related to OEM / ODM include:

# Specially for the Enterprises....

In the business world of today, technology is changing the way our society works. Companies need to be continuously updated on the emerging technologies that might just be the tool to bring their business to the next level. Check out the exhibitors that featuring the latest Enterprise Applications at the exhibition halls.

## Inmarsat

BGAN is the only mobile satellite service to offer broadband data and simultaneous voice through a single, compact terminal around the globe. With BGAN X-Stream™, users can harness IP streaming rates of up to 450kbps on demand. IsatPhone Pro, Inmarsat's new satellite phone, delivers the ultimate combination of reliability, global coverage, clear voice quality, robust handset and long battery life.

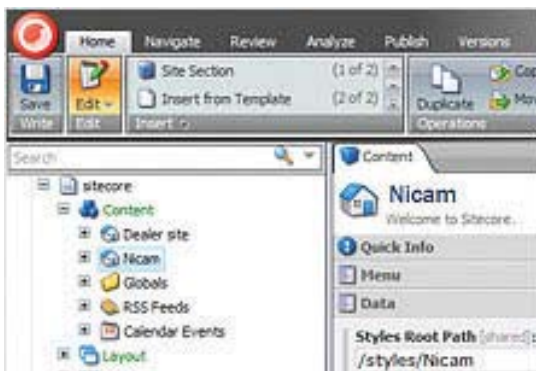

## MailChannels

MailChannels develops a carrier-scale mail transport platform that transparently filters port 25 traffic. It reduces the cost and complexity of detecting outbound spam abuse from malicious users or compromised customers. This protects mobile operators against fraudulent activity from tarnishing a network's IP reputation.

## Sitecore

Worldwide Launch

Sitecore will showcase their web content management and online marketing suite software, with skilled experts standing by to provide live demonstrations, discuss best practices and trends facing digital marketers today. Also making an appearance is the Microsoft Azure and SharePoint integrations that are unique to the industry.

## PLANET Technology Corporation

Worldwide Launch

PLANET Technology is launching the H.264 2Mega-Pixel Fish-Eye Panorama IP Camera. The camera has 360° fish-eye lens with 2 mega-pixel resolution, 1/3" progressive scan CMOS sensor, has the highest video compress rate - H.264 compression, supports IR-Cut filter removable (ICR) and is compliant with IEEE 802.3af PoE interface.

## Other exhibitors that showcase the latest enterprise applications include:

- ▶ 3M
- ▶ AEP Networks
- ▶ Anewtech Systems
- ▶ BlackBerry
- ▶ Ecquaria Technologies
- ▶ Irdeto
- ▶ Iridium Communications
- ▶ Kathrein-Werke
- ▶ Kedacom International
- ▶ NComputing
- ▶ PCCW Global
- ▶ PowerOasis
- ▶ SES World Skies
- ▶ ST Electronics (Info-Comm Systems)
- ▶ StarVision Information Technology
- ▶ Tata Communications
- ▶ Vidyo
- ▶ Visual Ads
- ▶ Vu TelePresence
- ▶ Zoho Corporation

# World's leading Satellite Communications Companies gather @ CommunicAsia / EnterpriseIT2011

Highly acclaimed as the choice business platform in Asia for many of the world's leading satellite companies, CommunicAsia / EnterpriseIT2011 has not only brought back all the big names but has also attracted many more satellite communications companies.

New exhibitors at the show floor include **Arqiva, AsiaSat, AUSPresence, Bharti Airtel, Crystal Solutions, Eurovision Asia-Pacific, Mitsubishi Electric Corporation, Tata Communications, Vislink News and Entertainment** and many others.

Seek out the latest products and services, industry trends and insights offered by the world's leading satellite players at the event.

## ABS - Asia Broadcast Satellite

Asia Broadcast Satellite (ABS) is one of the fastest growing premium satellite operators in the world. ABS offers a complete range of end-to-end solutions including direct-to-home, cable TV distribution, cellular backhaul / GSM, VSAT and internet backbone services with diverse IP transit through its European and Asian internet gateways.

## Arianespace

Arianespace is the world's leading launch service & solutions company, offering an unrivalled launcher family, comprising Ariane 5, Soyuz, Vega and an international workforce renowned for their culture of excellence. Arianespace has launched more than 290 satellites which represent half of the commercial satellites now in service worldwide. The company's order backlog at the beginning of 2011 was worth 4.3 billion euro with more than 35 Ariane missions and 18 Soyuz flights.

## AsiaSat

AsiaSat offers a comprehensive range of space and ground solutions to meet the changing needs of its clients. AsiaSat's fleet of three satellites, AsiaSat 3S, AsiaSat 4 and AsiaSat 5, provides comprehensive C-band coverage over Asia and Australasia, accessing more than 50 countries and regions across the Asia Pacific, and over two-thirds of the world's population. AsiaSat's high-power Ku-band beams serve South Asia, East Asia, Australasia and Indochina. A new satellite AsiaSat 7 is under construction, planned for launch in Q4 2011.

## AUSPresence

AUSPresence is showcasing the practical applications of satellite communications, timed to coincide with AUSPresence's expansion into the end user market through its satellite brokerage service - Satcomms CHOICE. The aim of the exhibition is to show the human side of satellite communications – from installers to users.

## Sky Perfect JSAT

SKY Perfect JSAT is the only satellite operator in Japan and has more than 20 years of experience in satellite service. With 14 satellites covering Japan, Asia, Oceania and North America, it is the largest satellite operator in Asia. These networks are used to support our core activities: multichannel pay TV services (SKY PerfecTV!), as well as to provide communication service in the remote area.

## SpeedCast

SpeedCast is a leading satellite telecommunications service provider, offering high-quality managed network services in over 35-countries in Asia, Middle East and Africa. SpeedCast operates over 10-VSAT platforms, with C-band and Ku-band. With 10-international points-of-presence and 10-teleport-operation, a global maritime network, it boasts a unique infrastructure to serve corporate and carriers' requirements.

## Suman Satellite Technology Worldwide Launch

Suman has developed the antennas with different aperture, type, frequency range and function which include 1.2m, 1.8m, 2.4m, 3.0m, 3.7m and 4.5m. The products all have the feature of high efficiency, fine sidelobes characteristics favorable of withstanding erosion and rust capability. They are also extremely convenient to install it and in full compliance of ITU580 IV requirements.

## THAICOM Public Company

Founded in 1991, THAICOM Public Company Limited has long been recognized as one of Asia's leading satellite operators and service providers. The Company currently owns and operates 2 satellites: THAICOM 4 (IPSTAR), the world's largest commercial satellite designed for high-speed communications over an IP platform, and THAICOM 5.

### Other exhibitors include:

- ▶ APT Satellite
- ▶ C2SAT Communications
- ▶ China Satellite Communications
- ▶ Comtech EF Data
- ▶ Eutelsat Communications
- ▶ GE-Satellite
- ▶ Gilat Satellite Networks
- ▶ GlobeCast Asia
- ▶ iDirect
- ▶ Inmarsat
- ▶ Intelsat
- ▶ Iridium Communications

- ▶ MEASAT Satellite Systems
- ▶ Newtec
- ▶ Orbit Communications Systems
- ▶ Satcom Global
- ▶ SED Systems
- ▶ SES World Skies
- ▶ ST Electronics (Satcom & Sensor Systems)
- ▶ ST Teleport
- ▶ SWE-DISH by Rockwell Collins

# Other Concurrent Events

**20 June 2011**  
**Marina Bay Sands,**  
**Level 4**

The **7th Ministerial Forum on ICT**, an annual high-level dialogue amongst ICT Ministers and senior officials in the region, is back on the 20 June 2011 at Marina Bay Sands, Singapore. Themed '**ICT-Enabled Communities: Opportunities and Challenges**', they will be discussing key ICT trends, policies and regulations. In year 2010, 14 Heads of Delegation from around the region participated.

## **BroadcastAsia2011**

**Exhibition**

**21 – 24 June 2011**  
**Suntec Singapore, Levels 3 & 4**

BroadcastAsia2011, highly acclaimed as THE one-stop knowledge platform for the Broadcasting industry, returns from 21 - 24 June 2011 at Suntec Singapore. The annual exhibition and conference convenes industry professionals, decision makers, vendors and buyers to experience the technologies which will drive Asia's digital media industry forward. Expect revolutionary technologies in 3D, Animation and VFX, Broadcast Infrastructure / Facilities, Digital Media Asset Management, HD / Digital TV / IPTV / HBBTV (Hybrid Broadcasting Broadband TV), Mobile Broadcasting, Motion / Film Production and Graphics, Playout Services, Pro Audio, Radio, Satellite and Workflow Solutions, to name a few.

Pre-register your visit online at  
[www.Broadcast-Asia.com/  
visitor-pre-registration](http://www.Broadcast-Asia.com/visitor-pre-registration)  
by 3 June 2011 for special benefits.

## **BroadcastAsia2011**

**International Conference and  
Creative Content Production  
Conference**

**21 – 24 June 2011**  
**Suntec Singapore, Level 3**

Meet close to 100 speakers at the BroadcastAsia2011 International Conference and the Creative Content Production Conference this year! Explore new developments and trends in 3DTV, HbbTV, multi-platform delivery, filebased workflow, DVB updates and much more.

Take a look at the creative and "softer" side of broadcasting and production and meet producers, directors and filmmakers as they expound on the challenges of developing engaging storylines, producing effective content and balancing production budgets.

To register for the conference, visit  
[www.Broadcast-Asia.com/  
conference-fees-registration](http://www.Broadcast-Asia.com/conference-fees-registration)  
today!

Complimentary buses plying between Marina Bay Sands and Suntec Singapore during exhibition days will ensure visitors to both BroadcastAsia and CommunicAsia have a seamless Infocomm and Media experience. Your CommunicAsia / EnterpriseIT2011 badge will also allow you entry to BroadcastAsia2011 exhibition.

GLOBAL EXCHANGE

FORUM

20 June 2011

Marina Bay Sands,  
Level 4

EXHIBITION

21 – 24 June 2011

Marina Bay Sands,  
Basement 2

Pivoting on the success of two consecutive international eGovernment events, the Ministry of Finance and the Infocomm Development Authority of Singapore, in partnership with Singapore Exhibition Services, are proud to organise the eGov Global Exchange. Themed **“Collaborative Government in a Connected World”**, the eGov Global Exchange will bring together senior eGovernment policy makers and practitioners from around the world, to facilitate mutual learning and sharing, providing participants with valuable insights on how governments can tackle emerging eGovernment issues and opportunities to better serve the needs of their citizens, and open opportunities to explore collaborations with an international audience.

Visit [www.egovexchange.com](http://www.egovexchange.com) for more information.

**Confirmed exhibitors include:**

- ▶ AEP NETWORKS
- ▶ BLANCCO
- ▶ CRIMSONLOGIC
- ▶ DIMENSION DATA (formerly known as DATACRAFT ASIA)
- ▶ ECQUARIA TECHNOLOGIES
- ▶ ESRI SINGAPORE
- ▶ HCL SINGAPORE
- ▶ HEWLETT-PACKARD SINGAPORE (SALES)
- ▶ NATIONAL INFORMATION SOCIETY AGENCY
- ▶ NCS GROUP
- ▶ NEC
- ▶ PCS SECURITY
- ▶ SOFTWARE AG
- ▶ SQL VIEW

**eGov Global Exchange comprises:**

- ▶ A full day eGov Forum on 20 June
- ▶ Four-day eGov Exhibition from 21 – 24 June
- ▶ Site visits to view government infocomm projects in Singapore on 21 June

## Asia Communication Awards

22 June 2011, Raffles Hotel, Singapore

**Celebrating the success of Asian telecoms, globally**

Held alongside CommunicAsia for the first time, Total Telecom is proud to present the Asia Communication Awards, which recognise the achievements of Asian telecoms companies and individuals responsible for the innovations, achievements and great new services that are helping to build tomorrows industry. The Awards are open to all telecommunication businesses; whether they are providers, traditional carriers, service providers, multimedia content providers, vendors, or another organisation providing a communication service.

Entries are now closed. You can still join in the celebrations by booking your place at this must attend awards ceremony. CommunicAsia / EnterpriseIT2011 exhibitors and visitors will be entitled to 10% discount. The gala dinner will take place in Singapore at the Raffles hotel on 22 June 2011.

Visit the website for more information: [www.asiacommsawards.com](http://www.asiacommsawards.com)
